

October's art project is inspired by Chesley Knight Bonestell, Jr. He is known as the "Father of Modern Space Art".

### Look for the Shapes

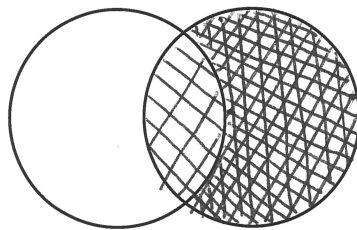

When drawing it can help to look for familiar shapes. Look for these geometric shapes in today's drawing: rectangle, triangle, circle, trapezoid and semicircle.

### Elements of Art

**Color Value:** How light or dark a color is.

**Blending:** Mixing two or more colors together. Blending colors can make a new color. Blending can also make soft transition between light and dark colors.

**Light and Shadow:** Think about where the light is coming from in today's drawing. How does the light shining on an object change how the color looks?
